Faida kwa wawekezaji ilikuwa kubwa ikilinganishwa na kigezo linganifu (Performance Benchmark). Faida kwa mwaka ilikuwa asilimia 12.1 ikilinganishwa na asilimia 11.2 ya mwaka ulioishia tarehe 30 Juni, 2023. Hata hivyo, uhitaji wa dhamana za serikali za muda mfupi uliongezeka kwa shilingi trilioni 0.7 hadi kufikia shilingi trilioni 4.3 kutoka shilingi trilioni 3.6 mwaka ulioishia tarehe 30 Juni 2024. Kiasi kilichokubaliwa baada ya mnada kimeongezeka kwa shilingi trilioni 0.1 kutoka shilingi trilioni 2.5 hadi shilingi trilioni 2.6 Juni 2024. Katika soko la dhamana za serikali za muda mrefu, jumla ya shilingi trilioni 3.3 ziliuzwa ikilinganishwa na shilingi trilioni 4.3 mwaka uliopita. Kiasi cha ushiriki kwa kipindi hicho kiliongezeka kwa shilingi trilioni 0.6 hadi shilingi trilioni 5.2 ikilinganishwa na shilingi trilioni 4.6 mwaka uliotangulia. Kiwango kilichokubaliwa kilipungua kwa shilingi trilioni 1.1 hadi shilingi trilioni 2.8 kutoka shilingi trilioni 3.9 mwaka 2023. Aidha, Kuongezeka kwa ushiriki na uwekezaji kwenye dhamana za serikali kunaashiria ongezeko la uelewa kwa umma kuhusu uwekezaji na akiba. Hivyo, ongezeko la uelewa na ushiriki katika soko la dhamana nchini husaidia kuboresha ukwasi na faida kwenye mifuko ya uwekezaji wa pamoja.
- 10.10 Kuhusu viwango vya Riba katika dhamana za serikali za muda mfupi Wawekezaji walielezwa kuwa, kwa mwaka wa ulioishia tarehe 30 Juni 2024, viwango vya riba vilivyotozwa kwenye amana za benki hazikubadilika kwa kiwango kikubwa. Ilielezwa kuwa, Wastani wa riba za mikopo ulikuwa asilimia 15.4 na riba kwa mikopo wa mwaka mmoja ni asilimia 15.8. Wastani wa faida kwa amana za benki ni asilimia 7.5 na faida kwa amana ya mwaka mmoja ni asilimia 8.7. Aidha, Kiwango cha wastani wa faida kwenye dhamana za serikali za muda mfupi kiliongezeka hadi asilimia 8.3 mnamo Juni 2024 kutoka asilimia 6.5 mnamo Juni 2023. Kiwango cha riba kwa mikopo ya siku kwa benki kilipanda hadi asilimia 7.2 kutoka asilimia 5.0. Mwezi Januari 2024, kamati ya sera ya fedha (MPC) ya benki kuu ilianza kutumia sera mpya ya fedha kwa kutumia mfumo wa riba ya Benki kuu (CBR). Riba hiyo iliongezwa hadi asilimia 6.0 mwezi Aprili 2024 kutoka asilimia 5.5 mwezi Januari 2024. Hata hivyo, ongezeko la faida kwenye uwekezaji wa dhamana hizo huleta matokeo chanya kwenye faida kwa wawekezaji.
- 10.11 Mwasilishaji alieleza kuwa, mnamo tarehe 30 Juni 2024, akiba ya fedha za kigeni ilifikia zaidi ya dola bilioni 5.0. Dola moja ya Marekani iliuzwa kwa shilingi 2,640.0 mnamo Juni 2024 ikilinganishwa na shilingi 2,339.1 mnamo Juni 2023, kwa kipindi cha mwaka mmoja shilingi ya Tanzania ilishuka thamani kwa asilimia 12.8 ikilinganishwa na asilimia 1.0 mwaka uliopita. Hata hivyo, Benki kuu ilichukua hatua kadhaa ikiwemo kuzuia utumiaji wa dola kwa mahitaji ya huduma na bidhaa zinazopatikana nchini. Hatua hizi zinatarajiwa kupunguza mahitaji ya fedha za kigeni, kuongeza akiba ya fedha za kigeni na kuimarisha thamani ya fedha ya Tanzania.
- 10.12 Kuhusu Soko la Mitaji na Dhamana, taarifa ilieleza kuwa kufikia tarehe 30 Juni 2024, ushiriki na uwekezaji kwenye soko la mitaji, dhamana na kwenye mifuko ya uwekezaji wa pamoja uliongezeka ikilinganishwa na mwaka uliopita 2023. Aidha, mifuko miwili ya uwekezaji wa pamoja iliongezeka sokoni, kwani meneja aitwae Alpha Capital Ltd alizindua mfuko wa Alpha Halal na Zan Securities Ltd alizindua mfuko wa Timiza. Hali ya ushiriki kwenye soko la mitaji, dhamana na uwekezaji kwenye mifuko ya pamoja nchini imeongezeka, ni matarajio yetu kuwa hali hii itazidi kuimarika na kuongezeka zaidi. Kuingia kwa wasimamizi wapya wa mifuko (meneja wa mifuko) ya uwekezaji wa pamoja na fursa zingine za uwekezaji sokoni ni ishara nzuri kwa UTT AMIS na soko kwa ujumla, na tunatarajia taasisi au kampuni zingine kujiunga ili kuongeza ukwasi na ushindani jambo ambalo litaongeza zaidi ufanisi, faida na huduma bora kwa Wawekezaji.

# CHAIRMAN'S LETTER TO INVESTORS OF UMOJA FUND

Dear Investors,

On behalf of the Board of Directors, I am pleased to welcome you all to the 17<sup>th</sup> Annual General Meeting (AGM) of the Umoja Fund. We thank you for making time to attend the AGM that will discuss developments of the Scheme for the financial year ended 30<sup>th</sup> June 2025.

Ladies and Gentlemen, it is my belief that you have been following developments of the Fund and that you have received and reviewed the Report of the Scheme for the year ended 30<sup>th</sup> June, 2025. I am happy to report that the performance of the Fund for the year under review was very good. Returns to investors have exceeded their performance benchmark with annualised return of 13.3% compared to 12.1% recorded in the previous financial year. The rate of return achieved is in line with market development and higher than the benchmark return of 12.1%. During the year under review, the Fund increased in size from Shillings 360.0 billion on 30<sup>th</sup> June 2024 to Shillings 390.0 billion on 30<sup>th</sup> June 2025. The increase is mostly attributed to good returns and growing public awareness on collective investment schemes.

## Performance of the Economy and Market Environment

Ladies and Gentlemen, performance of the macroeconomy, as per the National Bureau of Statistics, has continued to improve. Gross Domestic Product (GDP) grew by 5.5% in 2024 and is projected to grow by 6.0% in 2025. This makes Tanzania one of the well growing economies in the East African Community (EAC) and the Southern African Development region. As per the Bank of Tanzania reports, inflation ranged from 3.0% to 3.3% during the financial year ended 30<sup>th</sup> June 2025 compared to the target range of 3.0% to 5.0% and consistent with the EAC convergence criteria of not more than 8% and SADC range of 3.0% to 7.0%. Over the last twelve months to 30<sup>th</sup> June 2025, market interest rates have remained around same levels indicating overall stability of the market. Moreover, the Tanzanian Shilling has remained stable against the US Dollar recording slight appreciation of 0.3% during the year.

Regarding development of the capital market, positive progress was noted during the year as capitalization of the Dar es Salaam Stock Exchange (DSE) increased by 16.7% from Shillings 16.8 trillion on 30<sup>th</sup> June 2024 to Shillings 19.6 trillion on 30<sup>th</sup> June 2025. Moreover, the Tanzania Share Index (TSI) increased by 8.4% from 4,475.20 on 30<sup>th</sup> June 2024 to 4,852.30 on 30<sup>th</sup> June 2025. This means that during the year under review, share prices generally increased. The increase is usually driven by improving of performance of the listed companies, increasing confidence of both domestic and foreign investors and improving investment environment in the Country. We thank the Government for maintaining conducive business and regulatory environment.

## Managed Funds Performance and other Developments

Ladies and Gentlemen, as regards performance for the financial year ended on 30<sup>th</sup> June 2025, economic indicators show that UTT AMIS and the Funds under management performed very well. Funds under management increased from Shillings 2,238.2 billion on 30<sup>th</sup> June 2024 to Shillings 3,268.7 billion on 30<sup>th</sup> June 2025. This indicates an increase of Shillings 1,030.5 billion which is 46.0% compared to increase of Shillings 702.8 billion or 45.7% in the previous financial year. Growth in fund size is also supported by the increase in the number of investors in the schemes that grew by 143,990 or 44.0% compared to 79,519 or 32.0% in the previous financial year. For the year under review, returns to investors in all the Funds under management were very good.

Ladies and Gentlemen, during the year under review, the Company embarked on implementation of a new Strategic Plan for five years. The Plan was initially intended to end in 2029 but was later reviewed to end in 2030 to align with planning cycles of the Government. From the Plan, the Company intends to grow fund size from Shillings 2.2 trillion on 30<sup>th</sup> June 2024 to Shillings 8.5 trillion on 30<sup>th</sup> June 2030. Moreover, besides other objectives, the Organisation plans to revamp and automate service delivery while increasing the number of service centres to bring services closer to investors. The Company will continue to provide awareness to the public on new features of digital channels so that investors could benefit from the investments in the new systems.

## **Tanzania Development Vision 2050 (Dira 2050)**

As you are all aware, on 17<sup>th</sup> July 2025, the Dira 2050 was inaugurated with quite ambitious and noble goal of elevating the Tanzanian nominal GDP from the current USD 85 billion to one trillion USD which is about 12 times. This is one of the surest ways of creating sustainable financial freedom and wealth for your household and eventually at societal level, thus contributing to the national goal of reaching an economy of USD one trillion.

## **Prospects for the Financial Year 2025/26**

# 8 Manager's Report

## Fund Manager's Message to the Scheme Members

Umoja Fund is an open-ended balanced scheme offering growth-oriented investments for investors aiming at medium to long-term horizons. Being the first scheme launched by the Unit Trust of Tanzania in May 2005 and with a track record spanning 20 years, UMOJA Fund pioneered collective investment schemes designed to promote a savings culture in financial assets through broad unit ownership and has consistently achieved strong market performance records.

### 1.0 Fund Size and Net Asset Value (NAV) Per Unit

The scheme's fund size had a notable increase, reaching TZS 390.0 billion as of 30th June 2025. This reflects growth of 8.3% in the 2024/25 financial year, compared to 12.5% in the previous year. The Net Asset Value (NAV) per unit also rose by TZS 138.3, increasing from TZS 1,039.3 in 2024 to TZS 1,177.6 in 2025.

The portfolio's allocation to Treasury bonds of various tenures accounted for the largest share by 40.57% to take advantage of higher yields and stable cash flows. This is closely followed by listed equities, which account for 39.12%. Fixed deposits represent a portion of 15.28%, while corporate bonds make up 5.02%. The remaining (0.01%) is allocated to call accounts.

As shown in Table I, the returns for both financial years exceeded their respective benchmarks and remained attractive compared to similar investment instruments in the market.

Apart from the rate of return shown above, the other major differences to consider when comparing Umoja Fund with other financial investment avenues are:

- Umoja Fund returns are net of tax.
- Umoja Fund is open-ended, offering liquidity throughout the year with no minimum balance required to earn a return. As a result, returns are uniform across all types of investors, whether small, medium, or high-net-worth.
- Investing in Umoja Fund offers the convenience of a savings deposit account, combined with the potential for returns that exceed those of a typical savings account.
- Other instruments typically have a fixed tenure, and in the event of an emergency, redeeming them may involve discounting, often at a lower value.
- Umoja Fund provides flexibility in both subscription and withdrawal, allowing investors to buy or sell units on any business day

## 4.0 Economic Indicators

### 4.1 Gross Domestic Product (GDP)

In 2024, Tanzania's economy is estimated to have grown by 5.5% and is projected to grow by 6.0% in 2025. The growth rate of 5.5% is higher than the 5.1% recorded in 2023. According to the Financial Stability Report issued by the Bank of Tanzania, this performance was supported by several factors, including the continued implementation of strategic infrastructure projects and ongoing government initiatives aimed at improving the investment environment.

**Table III: Year-on-Year Real Gross Domestic Product (GDP) Growth Rate**

| Year | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025  |
|------|------|------|------|------|------|------|-------|
| GDP  | 7.0% | 4.8% | 4.9% | 4.7% | 5.1% | 5.5% | 6.0%* |

The positive economic growth trend observed since 2022 suggests that businesses have performed well and investors have successfully made savings, investments, and development activities. Additionally, the financial market has seen entry of new fund managers and oversubscriptions of newly listed securities. In 2025, both the volume and value of transactions increased compared to the same period last year.

For UTT AMIS-managed schemes, the presence of active financial markets has made its managed schemes more attractive, enhancing liquidity and delivering higher returns to investors.

### 4.2 Inflation Rate

Table IV shows that the inflation rate has remained low and stable. According to the Monetary Policy Statement issued in July 2025, the rate aligns with the national target as well as the East African Community (EAC) and Southern African Development Community (SADC) convergence criteria of 5.0%. The domestic economy has successfully maintained an inflation rate below this benchmark for the past seven years, as illustrated in Table IV.

Authorities have projected that over the medium-term period of three to five years, inflation will continue to remain within the 5.0% target range. However, as of 30<sup>th</sup> June 2025, all EAC member states recorded inflation rates below the benchmark, with the exception of Rwanda, DRC, South Sudan and Burundi.

**Table IV: Annual headline inflation from June 2019 to June 2025**

| Year Ended June    | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 |
|--------------------|------|------|------|------|------|------|------|
| Inflation rate [%] | 3.7% | 3.2% | 3.6% | 4.4% | 3.6% | 3.1% | 3.3% |

In those regards, having low and stable inflation in the domestic economy is favourable to investors and the general economy at large. Capital market products are found to be more attractive to investors when inflation in the economy is a low and stable. For UTT AMIS, such stability ensures that periodic distributable income and withdrawals remain reliable and less impacted by rising prices, supporting investors' long-term financial objectives.

### 4.3 Financial Sector

The Tanzanian financial sector continues to significantly contribute to the country's economy. In 2024, the financial system's total assets increased by TZS 13.3 trillion, reaching TZS 88.6 trillion, which accounts for more than 44.2% of the country's GDP. The financial sector comprises the following sub-sectors: banking, social security, collective investment schemes (CIS), and insurance. The banking sub-sector makes up 70.2% of total financial system assets, followed by social security at 24.1%, CIS at 3.0%, and insurance at 2.6%.

#### 4.3.1 Banking sub-sector

During the financial year ending in June 2025, the provision of financial services through digital channels continued to achieve remarkable progress in Tanzania's domestic market. Banks, in collaboration with fintechs (financial technology companies), introduced savings platforms that enable Tanzanians to save, transfer, invest, and access credit using their digital wallets. These digital solutions are mostly powered by partnerships between banks and Mobile Network Operators (MNOs).

The integration of mobile wallets with formal banking services, along with evolving consumer behaviour and growing trust, has further boosted digital savings. Investors can now seamlessly link their accounts. Mobile money platforms such as M-Pesa, Mixx by Yas, Halopesa, Azam Pesa, Selcom Pesa and Airtel Money have made saving more accessible, allowing users to deposit, withdraw, and transfer funds conveniently without relying on traditional channels.

In 2024, the volume and value of Wallet-to-Bank (W2B) transactions reached 9.5 million and TZS 3.6 trillion, respectively, representing increases of 43.3% and 32.7%.

Similar to the previous year, by the end of the 2024/25 financial year, the banking sub-sector's total assets grew by over 10.0%, reaching TZS 72.4 trillion. This growth was driven by increase of loans, advances, and overdrafts, supported by technology platforms that facilitate easy access to credit and by partnerships with MNOs for microloans. Total loans and bills increased from TZS 37.4 trillion to TZS 44.1 trillion, while total customer deposits rose by 19.7%, moving from TZS 40.6 trillion to TZS 48.6 trillion.

Alongside MNO integration with the banking system, UTT AMIS has successfully integrated its infrastructure with both MNOs and commercial banks, making savings and investments more convenient and accessible for the community. UTT AMIS investors can easily purchase units in preferred schemes by transferring funds directly from mobile wallets or bank accounts. During the financial year ended 30<sup>th</sup> June 2025, UTT AMIS received total of TZS 1.9 trillion in subscriptions through integrated channels. Similarly, total funds withdrawn (repurchases) and transferred to investors' bank accounts amounted to TZS 1.3 trillion.

#### 4.4 Telecommunication Sector

The expansion of Tanzania's telecommunications sector has significantly contributed to the development of the capital market, particularly through the growth of digital financial services. Mobile money platforms such as M-Pesa, Mixx by Yas, Halopesa, Azam Pesa, Selcom Pesa, and Airtel Money have enhanced financial inclusion by enabling users to save, borrow, and transact with ease.

In the broader telecom market, active SIM card subscriptions (number of active registered SIM cards) reached 92.7 million in June 2025, an increase of 17.2 million from the previous year. Mobile money subscriptions also grew by 22.0%, rising from 55.7 million to 68.0 million.

During the 2024/25 financial year, the volume of mobile wallet-to-business (W2B) subscriptions to UTT AMIS increased by 26.2%, reaching 276,187, while transaction values rose by 21.8% to TZS 86.6 billion.

UTT AMIS, in collaboration with commercial banks and MNOs, has successfully digitised its payment and operational systems. Investors can now open accounts, subscribe, redeem units, and view balances using the UTT AMIS mobile application or by dialing \*150\*82#. Daily withdrawals of up to TZS 5.0 million are also supported via mobile devices.

Looking ahead, UTT AMIS plans to launch a comprehensive digital investor platform by the end of the 2025/26 financial year. This platform will offer self-service capabilities for onboarding, transactions, inquiries/complaints, and account management, promoting a secure and paperless investment experience. To complement its digital transformation, UTT AMIS expanded its physical presence by opening new offices in Morogoro, Kahama and Dar es Salaam, bringing the total number of offices nationwide to eight (8). These offices serve as hubs for financial education, community engagement, and investor support.

## 4.6 Interest Rates

The Overall Weighted Average Rate (WAR) for Treasury Bills rose to 8.8% in June 2025, moving from 8.3% in June 2024. Similarly, the overnight interbank cash market rate increased slightly to 7.9% from 7.2%.

Yields and coupon rates for Treasury bonds exhibited a mixed trend during the second half of the 2024/25 financial year. The Bank of Tanzania transitioned from a fixed-rate approach to a market-determined method for setting coupon rates. This shift led to downward adjustments in coupon rates for long-term securities and upward adjustments for short- and medium-term instruments (Table V). According to the Bank, these changes were implemented to reflect prevailing market conditions

**Table V: The Revision of Coupon Rates: Treasury Securities.**

| Sn  | Description   |          | 2-Yrs  | 5-Yrs  | 10-Yrs | 15-Yrs | 20-Yrs | 25-Yrs |

**\*\*C. Rate-Coupon Rate**

Interest rates in commercial banks, both those charged on loans and those offered on deposits, remained broadly unchanged from the previous year. The overall lending rate averaged 15.6%, while the rate for one-year loans stood at 15.8%. Deposit rates for overall and one-year time deposits were 9.7% and 8.7%, respectively. In January 2025, the Central Bank shifted its monetary policy framework from targeting monetary aggregates to targeting interest rates. As of June 2025, the Central Bank Rate (CBR) remained steady at 6.0%.

The structure of interest rates and related market developments is vital to the progress of UTT AMIS, as they serve as key indicators of the future performance and attractiveness of the schemes under management.

## 4.7 Foreign Exchange Market

As of 30<sup>th</sup> June 2025, foreign reserves stood at over USD 6.0 billion, with the Bank projecting that this level was sufficient to cover more than four months of imports. The Tanzanian Shilling traded at TZS 2,631.3 per US dollar, compared to TZS 2,640.0 in June 2024. Year-on-year, the Shilling appreciated by 0.3%, marking a notable improvement from the 12.8% depreciation recorded in the previous year (Table VI).

To support exchange rate stability, authorities implemented measures to limit transaction dollarisation among residents, particularly in invoicing, quoting, and making payments in foreign currency. Additionally, in October 2024, the Bank began purchasing gold from the domestic market as part of its strategy to build foreign exchange reserves. These initiatives are expected to reduce demand for foreign currency and strengthen reserve levels.

**Table VI: Year-on-Year Exchange rate, TZS/USD**

| Year Ended June | 2019    | 2020    | 2021    | 2022    | 2023    | 2024    | 2025    |
|-----------------|---------|---------|---------|---------|---------|---------|---------|
| Exchange Rate   | 2,300.9 | 2,307.9 | 2,310.4 | 2,315.7 | 2,339.1 | 2,640.0 | 2,631.3 |

Exchange rate stability is vital for both UTT AMIS-managed schemes and the broader economy, as it helps preserve the value of assets denominated in Tanzanian Shillings. Although UTT AMIS schemes typically deliver competitive returns in local currency, diaspora and other foreign investors may encounter fluctuations in the value of withdrawn funds when converting into foreign currencies that have either appreciated or depreciated against the Tanzanian Shilling

## 4.8 Capital Market Performance

Investor participation in both primary and secondary markets increased in the financial year ending June 2025. According to the Bank of Tanzania (BOT) and the Capital Markets and Securities Authority (CMSA), the number of capital market investors grew by 16.8% in 2024, reaching 1,060,509. This growth was driven by the adoption of digital platforms, enhanced financial literacy, and continued market development, attracting greater involvement from local, diaspora, and foreign investors. Among the market developments implemented during the period were revisions of the coupon rates and DSE trading rules, which introduced new dynamics and opportunities within the exchange.

Throughout the review period, regulators, communities, securities issuers, and investors increasingly prioritised environmental, social, and governance (ESG) standards, alongside Shariah-compliant finance, which is grounded in ethical and risk-sharing principles.

### 4.8.1 Primary Market

In the Treasury bills market, the amount offered went down by TZS 0.1 trillion, moving to TZS 2.6 trillion. Also, on the demand side, the volume tendered went down by TZS 1.0 trillion to TZS 3.3 trillion from TZS 4.3 trillion. Total successful bids decreased by TZS 0.7 trillion from TZS 2.6 trillion to TZS 1.9 trillion in 2025.

In the Treasury bonds market, overall, government securities auctions were oversubscribed, with investors' preference biased toward longer maturities. A total of TZS 4.2 trillion was offered for sale compared with TZS 3.3 trillion in the previous year. Bids received for the period rose by TZS 2.0 trillion to TZS 7.2 trillion compared with TZS 5.2 trillion in the preceding year. The successful bids during the period grew by TZS 1.0 trillion to TZS 3.8 trillion from TZS 2.8 trillion in 2024.

In the corporate bonds market, the market has been active in terms of turnover, new entrants, and activities. During the period, five commercial banks issued corporate bonds worth TZS 1.2 trillion, as demonstrated in table VII.

**Table VII: A List of issued and Listed Corporate bonds**

The Collective Investment Schemes (CIS) market continued to demonstrate strong performance in terms of subscriptions and product development. During the period, new schemes were launched, further indicating growth in the CIS market and the strengthening of the savings culture.

### 4.8.2 Secondary Market of Listed Bonds

In the secondary market, the cumulative transaction value of traded government bonds grew by TZS 0.7 trillion to TZS 4.2 trillion from TZS 3.5 trillion in the preceding year. On the listed corporate bonds, the transaction value traded was TZS 9.3 billion compared with TZS 3.9 billion in the prior year. Either the transaction value for listed corporate bonds for the current year is higher compared to the value registered in the prior year by TZS 0.6 trillion, or this increase was due to new listed instruments during the period.

### 4.8.3 Equity Market

During the financial year, investments in Collective Investment Schemes (CIS) continued to project strong growth in both Assets Under Management (AUM) and the number of available funds. As of 30th June 2025, total AUM in the CIS market reached TZS 3,272.3 billion, up from TZS 2,273.6 billion in the previous financial year. The market also experienced registration of new schemes and a notable increase in investor subscriptions.

##### **4.8.4.1 UTT AMIS Managed Funds and related products**

The AUM of UTT AMIS-managed schemes and related services has increased by TZS 1,030.5 billion compared to an increase of TZS 702.8 billion recorded in the previous year. Moreover, the AUM during the period grew from TZS 2,238.2 billion to TZS 3,268.7 billion. The positive change in total AUM reflected increasing investors' confidence in UTT AMIS products following competitive returns and flexibility offered by the Funds.

For UTT AMIS, the entry of new fund managers and securities into the market is a positive indicator of growth and confidence in the capital market. New issuances create opportunities for investors, while the presence of additional fund managers helps cultivate a stronger savings culture, enhances market liquidity, and stimulates healthy competition.

As a result, the overall performance of UTT AMIS schemes was solid when compared to comparable products in the financial market. The returns delivered and liquidity provided to our esteemed investors during the 2024/25 financial year were both attractive and competitive. In this regard, we collectively take pride in our achievements and remain confident in our ability to continue meeting expectations of both existing and prospective investors.

#### **4.9 Financial Inclusion**

Inclusive financial services in Tanzania have been largely driven by technological advancements and related innovations. According to the Annual Financial Inclusion Report issued by the Bank of Tanzania, the number of capital market access points increased by 9.7% in 2024, reaching 417, significantly higher than the 2.3% increase recorded in 2023. This growth was primarily attributed to an increase in the number of Registered Warehouses, Collective Investment Schemes (CIS), Fund Managers, Licensed Dealing Members (LDM), Investment Advisors, and Custodians of securities.

For UTTAMIS, as of 30<sup>th</sup> June 2025, investors' funds were reflected in the prevailing Asset Under Management (AUM), which stood at TZS 3.2 trillion. These funds are diversified and invested on behalf of our valued investors across various capital market avenues, including listed equities, corporate bonds, bank placements, and treasury securities. These schemes enable Tanzanians to access a broader range of investment options beyond traditional savings accounts.

Through its products, the organisation has implemented various initiatives, including advertising campaigns like Kijiwe Mchongo and promotion of digital channels, to encourage a culture of saving among Tanzanians. The education provided and the success achieved over the past 20 years have empowered communities to embrace savings culture by investing indirectly in financial market securities through established products.

Over the course of one year, UTT AMIS successfully opened 134,768 new accounts via investors' mobile phones, attracting annual subscriptions totaling TZS 86.6 billion. However, total withdrawals initiated through mobile phones reached TZS 235.2 billion. Through its product offerings, UTT AMIS has enhanced access to financial securities, making them more beneficial to the broader community. The schemes under management are designed to be attractive, user-friendly, and affordable for individuals across all income levels, small, medium, and large. Investors benefit from attractive annual returns and can conveniently purchase or redeem units, starting with a minimum subscription of TZS 10,000/= and additional top-ups from TZS 5,000.

Through its investor registration process, UTT AMIS has encouraged many Tanzanians to open bank accounts, which are required during onboarding and are mandatory for processing withdrawals. Additionally, UTT AMIS has supported the uptake of loan facilities offered by financial institutions by educating investors and enabling them to use their units or invested funds as collateral, thereby improving access to credit and strengthening the business ecosystem

| 3.2            | <p><b>What is inflation and how does it affect the common man?</b></p> | <p>In simple economic terms – <b><i>“Inflation is a rise in the general level of prices of goods and services in an economy over a period of time”</i></b>. When the price level rises, as an effect each unit of a currency buys fewer goods and services.</p> <p>In an economy though there could be many factors which may contribute towards the high rates of inflation or hyperinflation, however one of the prime reasons among them is - the ‘excessive growth of money supply’. When in a country the money supply grows at a faster pace comparative to the rate of economic growth, it provides an easy fuel to the inflationary powers.</p> <p>Globally, the generally accepted indicators to measure inflation are Wholesale Price Index [WPI], Consumer Price Index [CPI], Personal Consumption Expenditure Price Index [PCEPI], and GDP Deflator etc. The Consumer Price Index [CPI] in a country measures prices of a selection of goods and services as purchased by a representing class of consumers.</p> <p>From a common man’s perspective, it is important to understand that the task of checking inflationary conditions in a country is normally vested with the Central Bank. Time and again such monitoring authorities take various measures as they deem fit &amp; proper to effectively manage the pace of inflation in an economy.</p> <p><b>Important Lesson:</b> In a rising inflation economy, keep investing at regular intervals even if the amount is small. By practicing a disciplined systematic investment approach, you can ease off the negative impact of rising inflation on your investments.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                |                  |  |     |  |                |          |             |          |             |   |           |              |           |              |   |           |              |           |              |   |           |              |           |              |    |            |               |            |               |    |            |               |            |               |               |     |  |     |  |                |              |               |              |               |   |               |                |               |                |   |               |                |               |                |   |               |                |               |                |    |                |                |                |                |    |                |                |                |                  |

| 3.3            | <p><b>What is ‘Magic of Compounding’?</b></p>                          | <p>Simply put, compounding refers to the re-investment of income at the same rate of return to constantly grow the principal amount, year after year. Cumulative fixed deposits are a prime example of compounding at work, wherein the total interest that you get paid for the period is more than the rate of interest multiplied by the period of the deposit.</p> <p>Would you care too much whether your rate of return is 10% or 12%? The fact is that if you did, it would make a big difference to your wealth creation as time progresses. The benefit from compounding arises primarily from the fact that income keeps growing the principal to generate higher absolute returns each year. Higher rates of return or longer investment periods increase the principal amount in geometric proportions.</p> <p><b>The Impact of ‘Power of Compounding’:</b></p> <p>Use the table below, to see the impact of ‘power of compounding’ on one-time investment of TZS 50,000/- and TZS 5,000,000/= with different rates of return and periods.</p> <p><b>Table I.</b></p> <table><tr><th>Interest Rate</th><th colspan="2">12%</th><th colspan="2">14%</th></tr><tr><th>Principle/Time</th><th>50,000/=</th><th>5,000,000/=</th><th>50,000/=</th><th>5,000,000/=</th></tr><tr><td>1</td><td>56,000.00</td><td>5,600,000.00</td><td>57,000.00</td><td>5,700,000.00</td></tr><tr><td>3</td><td>70,246.40</td><td>7,024,640.00</td><td>74,077.20</td><td>7,407,720.00</td></tr><tr><td>5</td><td>88,117.08</td><td>8,811,708.42</td><td>96,270.73</td><td>9,627,072.91</td></tr><tr><td>10</td><td>155,292.41</td><td>15,529,241.04</td><td>185,361.07</td><td>18,536,106.57</td></tr><tr><td>20</td><td>482,314.65</td><td>48,231,465.47</td><td>687,174.49</td><td>68,717,449.36</td></tr></table> <p>The table II below also shows the benefit from investing TZS 50,000,000/= and TZS 100,000,000/=, to see the impact of ‘power of compounding’ on one-time investment with different rates of return and time periods.</p> <p><b>Table II.</b></p> <table><tr><th>Interest Rate</th><th colspan="2">12%</th><th colspan="2">14%</th></tr><tr><th>Principle/Time</th><th>50,000,000/=</th><th>100,000,000/=</th><th>50,000,000/=</th><th>100,000,000/=</th></tr><tr><td>1</td><td>56,000,000.00</td><td>112,000,000.00</td><td>57,000,000.00</td><td>114,000,000.00</td></tr><tr><td>3</td><td>70,246,400.00</td><td>140,492,800.00</td><td>74,077,200.00</td><td>148,154,400.00</td></tr><tr><td>5</td><td>88,117,084.16</td><td>176,234,168.32</td><td>96,270,729.12</td><td>192,541,458.24</td></tr><tr><td>10</td><td>155,292,410.42</td><td>310,584,820.83</td><td>185,361,065.71</td><td>370,722,131.41</td></tr><tr><td>20</td><td>482,314,654.66</td><td>964,629,309.33</td><td>687,174,493.59</td><td>1,374,348,987.19</td></tr></table> | Interest Rate  | 12%              |  | 14% |  | Principle/Time | 50,000/= | 5,000,000/= | 50,000/= | 5,000,000/= | 1 | 56,000.00 | 5,600,000.00 | 57,000.00 | 5,700,000.00 | 3 | 70,246.40 | 7,024,640.00 | 74,077.20 | 7,407,720.00 | 5 | 88,117.08 | 8,811,708.42 | 96,270.73 | 9,627,072.91 | 10 | 155,292.41 | 15,529,241.04 | 185,361.07 | 18,536,106.57 | 20 | 482,314.65 | 48,231,465.47 | 687,174.49 | 68,717,449.36 | Interest Rate | 12% |  | 14% |  | Principle/Time | 50,000,000/= | 100,000,000/= | 50,000,000/= | 100,000,000/= | 1 | 56,000,000.00 | 112,000,000.00 | 57,000,000.00 | 114,000,000.00 | 3 | 70,246,400.00 | 140,492,800.00 | 74,077,200.00 | 148,154,400.00 | 5 | 88,117,084.16 | 176,234,168.32 | 96,270,729.12 | 192,541,458.24 | 10 | 155,292,410.42 | 310,584,820.83 | 185,361,065.71 | 370,722,131.41 | 20 | 482,314,654.66 | 964,629,309.33 | 687,174,493.59 | 1,374,348,987.19 |

By now, you've probably figured out the obvious conclusion from the above table. It is literally 'a waste of time and money' to let your wealth lie in low-income yielding investments for prolonged periods of time. You also must realize that **TIME** and **RATE OF RETURN** are the sources of the magic of compounding!!

**Important Lessons:** (1) Look for an investment opportunity, which can offer you comparatively superior returns; and (2) remain invested for a long time to avail the benefit of 'Magic of Compounding'.
