Hadi kufikia tarehe 30 Juni 2023 mgawanyo anuai wa rasilimali za mfuko ulikuwa kama unavyoonyeshwa. Mfuko wa Ukwasi umewekeza kiasi cha asilimia 99.2 kwenye dhamana za serikali za muda mrefu, asilimia 0.7 kwenye amana za benki za muda maalumu na asilimia 0.1 kwenye amana za benki za muda mfupi.
- 10.3 Faida ya Mfuko wa Ukwasi kwa kipindi cha mwaka mmoja ulioisha Juni 2023 ilikuwa asilimia 12.5 ikilinganishwa na faida ya asilimia 14.2 kwa mwaka 2022. Mambo mengine

muhimu ya kuzingatia wakati wa kulinganisha faida za uwekezaji katika Mfuko wa Ukwasi na amana katika benki yalieezwa. Uwekezaji kwenye mfuko wa Ukwasi ulionekana kuwa na faida kubwa zaidi ya akaunti ya amana na maeneo mengine linganifu kwa sababu inaongeza kipato kikubwa kutoptana na viwango bora vya faida vinavyo tolewa na mfuko. Pia, meneja alieleza kuwa kupungua kwa faida ya mfuko kumetokana na kupungua kwa viwango vya faida sokoni kama inavyooneshwa katika jedwali II.

- 10.4 Kuhusu pato la Taifa, meneja alisema kuwa Kwa mwaka 2022 uchumi ulikuwa kwa kiwango cha asilimia 4.7, ikilinganishwa na kiwango cha asilimia 4.9 mwaka 2021 (kama ilivyooneshwa kwenye jedwali III). Hata hivyo, kilimo, ujenzi na madini vilikuwa vichocheo vikubwa vya ukuaji wa uchumi katika kipindi hicho. Uchumi kwa mwaka 2023 unakadirwa kuongezeka kwa asilimia 5.2, ukichagizwa na kufufuliwa kwa shughuli za kiuchumi hususani uwelezaji kwenye sekta ya umma na binafsi nchini. Pato la taifa hutafasiri kiwango na shughuli za uchumi katika nchi. Hali imara na stahimilivu juu ya mwenendo wa uchumi ni muhimu kwa mifuko ya uwekezaji wa pamoja inayosimamiwa na UTT AMIS na maeneo mengine ya uwekezaji nchini. Uchumi imara husaidia kutunza na kuimarisha thamani ya uwekezaji na huvutia wawekezaji wa ndani na nje ya nchi.
- 10.5 Hali ya mfumuko wa bei nchini kwa mwaka wa fedha ulioisha Juni 2023 ni asilimia 3.6 ikilinganishwa na asilimia 4.4 iliyonakiliwa Juni 2022. Kupungua kwa mfumuko wa bei nchini kunaashiria gharama za bidhaa na huduma mbalimbali zilipungua kwa mwaka ulioshia Juni 2023 ikilinganishwa na kasi iliyokuwepo Juni 2022. Hali ya uchumi nchini na mwenendo wa mfumuko wa bei ni stahimilivu kiasi ambacho kimewezesha wawekezaji kwenye mifuko ya uwekezaji kuwekeza kwa wingi. UTT AMIS inajitahidi kuwekeza kwenye maeneo yanayotoa faida shindani kuliko kiwango cha mfumuko wa bei.

Jumla ya mikopo imefikia shilingi trillioni 31.5 mwaka 2023 sawa na asilimia 21.6 ikilinganishwa na shilingi trillioni 25.9 mwaka uliopita. Ongezeko kwenye kiwango cha mkopo lilisababishwa na kupungua kwa masharti na viashiria vya hatari mionganini mwa wateja. Hata hivyo, viashiria vya hatari kwenye mikopo ya wateja wadogo na Taasisi zisizo za kifedha vilipungua ikilinganishwa na mwaka uliopita. Kuendelea kuimarika kwa sekta ya benki ni muhimu kwa mifuko ya uwekezaji wa pamoja na uchumi kwa ujumla kwani huduma zitolewazo na benki huchochea ufanisi kwenye uchumi.
- 10.7 Mwasilishaji alieleza, namna sekta ya mawasiliano inavyoendelea kuchochea na kurahisisha uwekezaji katika mifuko na huduma binafsi. Aidha, kiasi kilichokubaliwa baada ya mnada kimeongezeka kwa asilimia 56.2 (shilingi trillioni 0.9) kutoka shilingi trillioni 1.6 hadi shilingi trillioni 2.5 Juni 2023. Kwa kipindi hicho, kiasi cha dhamana za serikali za muda mrefu kilichouzwa kwenye soko la awali ni shilingi trillioni 4.3 ikilinganishwa na shilingi trillioni 3.3 mwaka uliopita.
- 10.9 Kiwango cha ushiriki kwenye minada hiyo kilipungua hadi shilingi trillioni 4.6 (asilimia 28.1) ikilinganishwa na shilingi trillioni 6.4. Viwango vya hifadhi ya akiba kisheria vya Benki kuu kwa benki za biashara pamoja na punguzo la riba nchini viliendelea kuwa asilimia 7.0 na 5.0 mtawaliwa. Mabadiliko ya riba katika soko la fedha na mitaji huathiri moja kwa moja thamani ya mifuko ya uwekezaji wa pamoja na uchumi kiujumla. Vivyo hivyo kuongezeka kwa riba sokoni hupelekea kuongezeka kwa thamani ya uwekezaji kwenye mifuko hususani pindi uwekezaji mpya unapofanyika.

Kupanda kwa Hatifungani hizo kulitokana na kuorodheshwa kwa hatifungani mpya ya SUKUK na Twiga mwezi Desemba 2022. Hatifungani za kampuni binafsi zilizopo ni Jasiri bondi iliorodheshwa na benki ya NMB yenye miaka 3, Fursa Sukuk bondi iliorodheshwa na benki ya KCB yenye miaka 3, Twiga bondi iliorodheshwa na benki ya NBC yenye ukomo wa miaka 5, bondi ya miaka 5 ya Taasisi ya Mikopo ya nyumba kwa benki nchini.

Wawekezaji walihakikishiwa kuwa gharama hizo zimezingatia viwango vilivyopo kwenye waraka wa wakubaliano (offer document) kwa kuzingatia faida kwa wawekezaji na hizi nyaraka zinapatikana katika tovuti ya UTT AMIS zikielezea kwa undani kabisa.

ujumbe wa simu kuwa kitambulisho chake kipo tayari na anaweza sasa kuja kuchukua. Pia aliwatoa wasiwasi kuwa ghamama za vitambulisho zinabebwa na meneja wa mfuko na si mwekezaji.

11.2.7 Kuhusu suala la vigezo vya ufanisi, alieleza kuwa vigezo hivyo huwa vinaandaliwa na Mamlaka ya Masoko ya Mitaji na Dhamana na taasisi ya UTT AMIS kama meneja wa mfuko, inayoratibiwa na Mamlaka ya Masoko ya Mitaji na Dhamana (CMSA) haina budi kufuata na kutekeleza kama iliyooainishwa.

11.2.15 Ufanuzi ulitolewa kwa picha na mwakilishi kutoka benki ya CRDB kuhusu huduma ya utoaji wa pesa mfululizo kwa mpango wa kila mwezi kwa ridhaa ya mteja (standing order). ## Chairman's Statement

## CHAIRMAN'S STATEMENT

Dear Investors,

On behalf of the Board of Directors, I am pleased to welcome you all to the 6th Annual General Meeting (AGM) of Liquid Fund. We thank you for making time to attend the AGM that will discuss developments of the Scheme for the financial year ended 30 June 2024, get replies to any queries you might have and listen to very interesting speakers who will raise our level of understanding of the ever-changing landscape of financial investment.

As new Chairman of the UTT AMIS Board of Directors, please allow me to record my appreciation to Her Excellency, Samia Suluhu Hassan, the President of the United Republic of Tanzania, for appointing me to lead the Board of Directors of UTT AMIS. My appreciation also goes to Honourable Dr Mwigulu Lameck Nchemba (MP), the Minister of Finance, the Permanent Secretary Treasury, Dr. Natu Mwamba and the Treasury Registrar, Mr. Nehemiah Mchechu, for the guidance I received following my appointment to the Chairmanship. I also thank you investors into Liquid Fund for your confidence in the Fund. As I take over from the previous Chairman, Mr. Casmir Sumba Kyuki, please allow me to record my appreciation for his outstanding leadership of the UTT AMIS Board of Directors. My brother, Kyuki, has steered UTT AMIS from a small organisation to one of the leading organisations in the capital market in Tanzania and the region at large. I, again, thank him for an outstanding tenure and wish him good health and the very best in his future endeavours.

Dear Investors, as we all know, UTT AMIS is a unique wealth creation public institution which was formed by our responsive Government way back in 2003 with several aims including development of collective investment schemes and encouraging saving and investment culture through wide participation in the ownership of distributed shares / units, among others. Indeed, over 20 years of the existing in different formats, a lot of wealth has been created and distributed for investors. It is a pleasure to communicate with my fellow investors who have tasted the joy which comes from the passive investment which enables us to make money while we are sleeping or taking care of other life activities. One wise seasoned successful investor, Warren Buffet – CEO of Berkshire Hathaway in the USA, once quipped that “if you don’t find a way to make money while you sleep, you will work until you die”. I sincerely therefore applaud each investor for the wise decision you took to trust and invest your money in various UTT AMIS funds. As this report will clearly demonstrate, our UTT AMIS is well run by very competent management and staff who are supervised judiciously by various public institutions. Given this level of commitment and supervision, it came by no surprise that UTT AMIS emerged as an overall winner of the most efficiently run public institution in the Country. On behalf of you all, I was privileged to receive a trophy from HE the President, Dr. Samia Suluhu Hassan, in Arusha during the Chairmen and CEOs Forum on 28 August 2024.

Ladies and Gentlemen, it is my belief that you have been following developments of the Fund and that you have received and reviewed the Report of the Scheme for the year ended 30 June, 2024. I am happy to report that the performance of the Fund for the year under review was very good. Returns to investors have exceeded their performance benchmark with annualised return of 12.9% compared to 12.5% recorded in the previous financial year. The rate of return achieved is in line with market development and higher than the benchmark return of 12.3%. During the year under review, the Fund increased in size from Shillings 724.7 billion on 30 June 2023 to Shillings 1,115.0 billion on 30 June 2024. The increase is mostly attributed to good returns, automation of investment processes and growing public confidence and awareness on the benefits of investing through collective investment schemes.

### Performance of the Economy and Market Environment

Ladies and Gentlemen, despite risks emanating from geopolitical tensions and wars around the World, performance of the Tanzanian economy has continued to improve as it grew by 5.1% in 2023 and is projected to grow by 5.4% in 2024. This compares favourably with average growth of 3.4% in 2023 and 3.8% in 2024 of the Sub-Saharan African countries as projected by the International Monetary Fund. As per the Bank of Tanzania reports, inflation was 3.1% in June 2024 against the target of not more than 5% and the East African countries target of not more than 8%. Over the last one year, market interest rates have remained around same levels indicating overall stability of the market. As for the foreign exchange market, the Tanzanian Shilling

depreciated by approximately 12.86% against the US Dollar mostly due to changing policies in the United States of America and effects of geopolitical tensions and the ongoing wars in Asia.

Regarding capital market development, quite good progress was noted during the year under review. A number of new listings of debt securities were made while prices of listed shares improved as reflected through the increase of the Tanzania Share Index (TSI). During the year, TSI increased by 9.37% from 4,091.81 on 30 June 2023 to 4,475.20 on 30 June 2024. This compares favorably with the previous financial year where the increase of the TSI was 4.16%. This indicates that performance of listed companies was better during the financial year under review and that business environment has continued to improve. We thank the President, Her Excellency Samia Suluhu Hassan and the Government for maintaining conducive business and regulatory environment in the Country.

## Managed Funds Performance and other Developments

Ladies and Gentlemen, as regards performance for the financial year ended on 30 June 2024, performance indicators show that UTT AMIS and the funds under management performed very well. Funds under management increased from Shillings 1.5354 Trillion on 30 June 2023 to Shillings 2.2382 Trillion on 30 June 2024. This indicates an increase of Shillings 702.8 billion which is 45.7% compared to increase of Shillings 538.9 billion or 54.0% in the previous financial year. Growth in fund size is also supported by the increase in the number of investors in the schemes that went up by 79,519 or 32% compared to 47,480 or 24% in the previous financial year. For the year under review, returns to investors in all the funds under management were very good – as pointed out earlier, Liquid Fund had a return of 12.9%.

Ladies and Gentlemen, during the year under review, the Company continued with the final phase of implementation of the five years Strategic Plan to June 2024. The Company also worked on a new Strategic Plan for the next five years. The New Plan is intended to make UTT AMIS one of key players in the capital market in Tanzania and the East African region. To align with Government planning cycle, the Plan will be reviewed in the 2024/2025 financial year so that it ends in June 2030. From the Plan, some of the strategic goals include growing fund size from Shillings 2.2 trillion currently to Shillings 7.5 trillion, and increasing the number of service centres to bring services closer to investors in Tanzania, the East African and Southern African Development communities. Moreover, the Plan indicates that service delivery will mostly be technology driven with minimum or no paperwork. To prepare for implementation of the new Strategic Plan, during the financial year, the Company started working on upgrading of systems so as to enhance computing capability and accommodate higher volume of business. The upgrade project is planned for completion in the twelve months.

## Prospects for the Financial Year 2024/25

Ladies and gentlemen, the five years of implementation of UTT AMIS Strategic Plan to 2024 have been extremely successful and beyond what was initially projected. For instance, fund size was projected to grow from Shillings 290.74 billion on 30 June 2019 to Shillings 485.90 billion but later revised Shillings 1,007.90 billion on 30 June 2024, however, actual fund size on that date was Shillings 2.2 trillion. This indicates that actual performance was more than four times the initial projections and more than double the revised projections.

As we get into the first year of the new Plan, the Company intends to complete upgrade of systems to lay the groundwork for the next phase of growth of UTT AMIS business. Moreover, the Company will continue working on priorities including improving existing products and services and identifying new business lines for the benefit of investors, shareholders and other stakeholders. UTT AMIS will also continue working on modernization of operations and ensuring that investors obtain the best returns that the market may provide. It is our intention to make UTT AMIS one of important vehicles for not only wealth creation and management but also generational wealth.

During the Chairmen and CEOs Forum in Arusha, HE President of the United Republic of Tanzania, Dr. Samia Suluhu Hassan, instructed the parastatals which have the capability to venture to go out of Tanzania to look for more economic and profitable opportunities. As UTT AMIS embarks on implementation of the Strategic Plan for the next five years, we intend to reach more investors in Tanzania, East Africa and SADC countries. In fact, the Company has been following market developments in the two regional economic communities for a number of years now. Preliminary indications are that some of these countries have very interesting opportunities. We will enhance our efforts in analysing the new markets so that entry decisions could be made timely. Given the strategic plan goal of expanding the fund size, it is imperative that every opportunity must be seized. Because you already know the benefits of investing your hard-earned cash with UTT AMIS, we request you to be effective ambassadors of passing a word of mouth to your family members, friends and colleagues. In order to empower you for this task, we have a question and answers session as well as presentations, discussions and talks from seasoned experts in this field. Luckily, all the interesting speakers who have accepted to share their expertise are seasoned fellow investors in various UTT AMIS products.

## Acknowledgements

Ladies and Gentlemen, to conclude, I wish to thank you, esteemed investors for your unwavering support and confidence in UTT AMIS and Liquid Fund during the year under review. My special appreciation to the Government, represented by the Ministry of Finance, the Office of Treasury Registrar, the Capital Markets and Securities Authority, the Custodian of the funds under management – CRDB Bank, the Dar es Salaam Stock Exchange including Brokers, UTT AMIS members of staff and all stakeholders who supported the Company during the year. It is my hope that you will all continue to extend your support to UTT AMIS for the good of our investors and development of the capital market and the financial services industry in Tanzania.

As a Board of Directors, we collectively look forward to your cooperation over the coming years.

## Manager's Report

## Fund Manager's Message to the Scheme Members

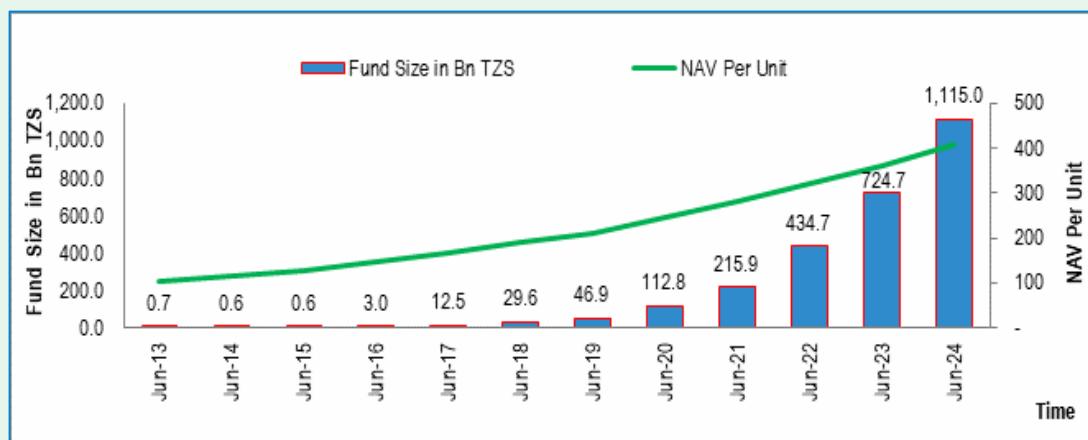

Liquid Fund was launched in April 2013 as an open-ended growth scheme providing a high level of liquidity coupled with low risk. It is designed to provide an alternate investment opportunity to Investors (individuals or Institutions), for parking their funds for short to medium-term duration at competitive returns.

The Scheme requires initial investment amount of TZS 100,000 with the subsequent amount, not below TZS 10,000. It offers flexibility of withdrawing money when required without any exit load.

### 1.0 Fund Size and Net Asset Value (NAV) Per Unit

As of 30<sup>th</sup> June 2024, the Scheme fund size was TZS 1,115.0 billion. During the financial year, the Scheme fund size grew by TZS 390.3 billion compared with the growth of TZS 290.0 billion recorded in the prior financial year. The NAV per unit increased by TZS 46.8 to TZS 408.9 from TZS 362.1 in 2023.

### 2.0 Portfolio Composition

**Chart II: Portfolio Composition for Liquid Fund as of 30<sup>th</sup> June 2024**

From Chart II, it can be seen clearly that Treasury bonds of various tenures accounted for the largest share of the portfolio by 86.7% to take advantage of higher yields and stable cashflows, followed by fixed deposits (9.4%) and call account for 3.9%.

### 3.0 Returns

The Scheme's annual return for the financial year ended in June 2024 was 12.9% compared with the benchmark return of 12.3% (refer to Table I) and the previous year return of 12.5%.

Table I and II below shows the movement of returns where one can see the current and the previous years' performance. The table also, indicates that the returns for the financial years were above their respective benchmark and competitive when compared with similar or comparable instruments in the market (refer to table I).

Apart from the rate of return shown above, the other major differences that one needs to consider while comparing Liquid Fund with savings deposit rate in the markets are;

- No entry or exit load in Liquid Fund.
- Liquid Fund returns are net of tax.
- Liquid Fund is an open-ended fund providing liquidity throughout the year with no limit on the minimum balance required to earn return. So, returns from Liquid Fund are the same across all types of investors (whether small, medium, or high net worth).
- Investing in Liquid Fund is almost like having the ease of a savings deposit account coupled with the power of return over and above a savings account.
- Other instruments have a fixed tenure and if there is an emergency, it entails discounting of these instruments likely at lower value.
- Flexibility in subscription and withdrawals, so one can buy as well as sell units on any business day.

## 4.0 Economic Indicators

### 4.1 Gross Domestic Product (GDP)

Measured through GDP, the economy grew by 5.1% in 2023 compared with 4.7% in 2022, driven by agriculture, construction, mining and other sectors. For the year 2024, the economy is projected to grow by 5.4% indicating that the Country has built resilience against disruptions caused by ongoing wars, geopolitical tensions and changing policies in international financial markets. Favourable business conditions and public investment in infrastructure contributed to the growth of the economy. The growth outlook is important for UTT AMIS-managed schemes and the entire economy since it provides indications on future prospects as regards performance of the funds.

**Table III: Year-on-Year Real Gross Domestic Product (GDP) Growth Rate**

GDP	7.0%	7.0%	4.8%	4.9%	4.7%	5.1%	5.4%*

Projected data, GDP; Source: NBS and Bank of Tanzania (BOT)

### 4.2 Inflation Rate

The table below (Table IV), shows that the inflation rate has remained below 5.0%. According to the Monetary Policy Statement issued in July 2024, the rate has been within the EAC and SADC convergence criteria of 5.0% as the rate in June 2024 and June 2023 was 3.1% and 3.6% respectively. The observed trends of the inflation rate were mostly a result of adequacy of food supply, complemented by prudent monetary and fiscal policies implemented during the period.

Over the medium-term period of 3 to 5 years, inflation is projected to evolve within the target of 5.0%. Hence, having low and stable inflation in the economy is favorable to investors, UTT AMIS, and the economy at large, as it helps in preserving value of invested funds and enables investors keep extra cash for investing.

### 4.3 Banking Sector

During the financial year that ended in June 2024, the banking sector, which constitutes the largest segment of the financial services sector, remained sound, stable, and profitable, with adequate capital and liquidity. Total assets increased by TZS 8.3 trillion to TZS 62.0 trillion in June 2024 from TZS 53.7 trillion in the previous year, mainly driven by growth of deposits. Total customer deposits size rose by 13.7% moving from TZS 35.7 trillion to TZS 40.6 trillion while total loans and bills reached TZS 37.4 trillion compared with TZS 31.5 trillion in the previous year.

On digital banking channels, the reliability of payment systems remained stable, evidenced by a high rate of completed transactions and low downtime, encouraging public usage of the platform in financial services delivery. Moreover, in 2023 the volume and value of Wallet to Bank (W2B) transactions were 6.6 million and TZS 2.7 trillion respectively, reflecting an increase of 34.1% and 25.2% from the prior year.

The stability of the banking sector is important to the schemes and investors as it facilitates economic activities and smoothens subscriptions into the funds. UTT AMIS has successfully integrated systems with a number of commercial banks to enable investors buy units digitally at their convenience.

#### **4.4 Telecommunication Sector**

In the telecom market, subscriptions have increased by 11.5 million to 75.5 million in June 2024 compared with an increase of 7.8 million noted in a similar period of the previous year. Either, the subscriptions volume represents the count of all registered active sim cards used at least once in the past three months. Mobile money subscriptions (active sim cards with mobile money service accounts) have also increased by 18.0% moving from 47.2 million to 55.7 million in June 2024.

The volume of subscriptions for the sale of units received by UTT AMIS through the mobile phones was 47.4 billion in 2024 compared with 25.4 billion received in 2023.

For UTT AMIS, the growth of the Telecom sector has positive impact on service delivery as it has enhanced self-service, improved convenience and reduced paper work. Through mobile devices, investors can easily open accounts, buy or/and sell units, and view investment balances or activities by dialing \*150\*82# or using the UTTAMIS App. In addition, UTT AMIS is considering to increase the withdrawal amount through the mobile platform from the current value of TZS 2.0 million to 5.0 million per day.

#### **4.5 Government Securities**

During the financial year that ended in June 2024, the demand for treasury securities in the primary market was higher compared to the volume registered in the previous year.

In the Treasury bills market, the amount offered went down by TZS 0.6 trillion to TZS 2.7 trillion. However, on the demand side, the volume tendered went up by TZS 0.7 trillion to TZS 4.3 trillion from TZS 3.6 trillion in the prior year. Total successful bids increased by TZS 0.1 trillion from TZS 2.5 trillion to TZS 2.6 in 2024.

In the Treasury bonds market, a total of TZS 3.3 trillion were offered for sale compared with TZS 4.3 trillion in the previous year. Bids received for the period rose by TZS 0.6 trillion to TZS 5.2 trillion compared with TZS 4.6 trillion in the preceding year. Successful bids during the period decreased by TZS 1.1 trillion to TZS 2.8 trillion from TZS 3.9 trillion in 2023.

Increase in demand for treasury securities signifies an increase in public awareness on investments and savings. Hence, the increase in awareness and participation in the domestic market helps the schemes under management to enhance liquidity and deliver attractive returns to investors.

#### **4.6 Interest Rates**

Interest rates charged on loans and those offered on deposits by banks remained broadly unchanged from last year's pricing. The overall lending rate averaged 15.4% and that of one-year loans at 15.8%. The overall and one-year time deposit interest rates were 7.5% and 8.7%, respectively.

The Treasury Bills Overall Weighted Average Rate (WAR) went up to 8.3% in June 2024 from 6.5% in June 2023. The overall interbank cash market rate (overnight) rose to 7.2% from 5.0%. In January 2024, the Bank of Tanzania shifted from targeting quantity of money (monetary aggregates) to targeting interest rates. During the period, the Bank increased the Central Bank Rate (CBR) from 5.5% to 6.0%.

Yields in the domestic market specifically in the treasury bonds market traded at higher levels compared with rates in the preceding year. The upward movement of interest rates or yields have an upward effect on investors' returns and profitability.

#### **4.7 Foreign Exchange Market**

As of 30<sup>th</sup> June 2024, foreign reserves were more than USD 5.0 billion. The Bank projected that the reserves are sufficient to cover more than four (4) months of imports. The Shilling traded at TZS 2,640.0 per US dollar compared with TZS 2,339.1 per US dollar in June 2023 indicating depreciation of 12.8% compared with 1.0% in the previous year (Table V). The Bank has taken measures including limiting transaction dollarization between residents who are invoicing, quoting, or making payments using foreign currency. These are expected to reduce the demand for foreign currency, increase foreign reserves and stabilize the domestic currency.

3.2	<b>What is inflation and how does it affect the common man?</b>	<p>In simple economic terms – “<b>Inflation is a rise in the general level of prices of goods and services in an economy over a period of time</b>”. When the price level rises, as an effect each unit of a currency buys fewer goods and services.</p> <p>In an economy though there could be many factors which may contribute towards the high rates of inflation or hyperinflation, however one of the prime reasons among them is - the ‘excessive growth of money supply’. When in a country the money supply grows at a faster pace comparative to the rate of economic growth, it provides an easy fuel to the inflationary powers.</p> <p>Globally, the generally accepted indicators to measure inflation are Wholesale Price Index [WPI], Consumer Price Index [CPI], Personal Consumption Expenditure Price Index [PCEPI], and GDP Deflator etc. The Consumer Price Index [CPI] in a country measures prices of a selection of goods and services as purchased by a representing class of consumers.</p> <p>From a common man’s perspective, it is important to understand that the task of checking inflationary conditions in a country is normally vested with the Central Bank. Time and again such monitoring authorities take various measures as they deem fit &amp; proper to effectively manage the pace of inflation in an economy.</p> <p><b>Important Lesson:</b> In a rising inflation economy, keep investing at regular intervals even if the amount is small. By practicing a disciplined systematic investment approach, you can ease off the negative impact of rising inflation on your investments.</p>																																																																						
3.3	<b>What is ‘Magic of Compounding’?</b>	<p>Simply put, compounding refers to the re-investment of income at the same rate of return to constantly grow the principal amount, year after year. Cumulative fixed deposits are a prime example of compounding at work, wherein the total interest that you get paid for the period is more than the rate of interest multiplied by the period of the deposit.</p> <p>Would you care too much whether your rate of return is 10% or 12%? The fact is that if you did, it would make a big difference to your wealth creation as time progresses. The benefit from compounding arises primarily from the fact that income keeps growing the principal to generate higher absolute returns each year. Higher rates of return or longer investment periods increase the principal amount in geometric proportions.</p> <p><b>The Impact of ‘Power of Compounding’:</b></p> <p>Use the table below, to see the impact of ‘power of compounding’ on one-time investment of TZS 50,000/- and TZS 5,000,000/= with different rates of return and periods.</p> <p><b>Table I.</b></p> <table border="1"> <thead> <tr> <th>Interest Rate</th> <th colspan="2">12%</th> <th colspan="2">14%</th> </tr> <tr> <th>Principle/Time</th> <th>50,000/=</th> <th>5,000,000/=</th> <th>50,000/=</th> <th>5,000,000/=</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>56,000.00</td> <td>5,600,000.00</td> <td>57,000.00</td> <td>5,700,000.00</td> </tr> <tr> <td>3</td> <td>70,246.40</td> <td>7,024,640.00</td> <td>74,077.20</td> <td>7,407,720.00</td> </tr> <tr> <td>5</td> <td>88,117.08</td> <td>8,811,708.42</td> <td>96,270.73</td> <td>9,627,072.91</td> </tr> <tr> <td>10</td> <td>155,292.41</td> <td>15,529,241.04</td> <td>185,361.07</td> <td>18,536,106.57</td> </tr> <tr> <td>20</td> <td>482,314.65</td> <td>48,231,465.47</td> <td>687,174.49</td> <td>68,717,449.36</td> </tr> </tbody> </table> <p>The table II below also shows the benefit from investing TZS 50,000,000/= and TZS 100,000,000/=, to see the impact of ‘power of compounding’ on one-time investment with different rates of return and time periods.</p> <p><b>Table II.</b></p> <table border="1"> <thead> <tr> <th>Interest Rate</th> <th colspan="2">12%</th> <th colspan="2">14%</th> </tr> <tr> <th>Principle/Time</th> <th>50,000,000/=</th> <th>100,000,000/=</th> <th>50,000,000/=</th> <th>100,000,000/=</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>56,000,000.00</td> <td>112,000,000.00</td> <td>57,000,000.00</td> <td>114,000,000.00</td> </tr> <tr> <td>3</td> <td>70,246,400.00</td> <td>140,492,800.00</td> <td>74,077,200.00</td> <td>148,154,400.00</td> </tr> <tr> <td>5</td> <td>88,117,084.16</td> <td>176,234,168.32</td> <td>96,270,729.12</td> <td>192,541,458.24</td> </tr> <tr> <td>10</td> <td>155,292,410.42</td> <td>310,584,820.83</td> <td>185,361,065.71</td> <td>370,722,131.41</td> </tr> <tr> <td>20</td> <td>482,314,654.66</td> <td>964,629,309.33</td> <td>687,174,493.59</td> <td>1,374,348,987.19</td> </tr> </tbody> </table>	Interest Rate	12%		14%		Principle/Time	50,000/=	5,000,000/=	50,000/=	5,000,000/=	1	56,000.00	5,600,000.00	57,000.00	5,700,000.00	3	70,246.40	7,024,640.00	74,077.20	7,407,720.00	5	88,117.08	8,811,708.42	96,270.73	9,627,072.91	10	155,292.41	15,529,241.04	185,361.07	18,536,106.57	20	482,314.65	48,231,465.47	687,174.49	68,717,449.36	Interest Rate	12%		14%		Principle/Time	50,000,000/=	100,000,000/=	50,000,000/=	100,000,000/=	1	56,000,000.00	112,000,000.00	57,000,000.00	114,000,000.00	3	70,246,400.00	140,492,800.00	74,077,200.00	148,154,400.00	5	88,117,084.16	176,234,168.32	96,270,729.12	192,541,458.24	10	155,292,410.42	310,584,820.83	185,361,065.71	370,722,131.41	20	482,314,654.66	964,629,309.33	687,174,493.59	1,374,348,987.19

By now, you've probably figured out the obvious conclusion from the above table. It is literally 'a waste of time and money' to let your wealth lie in low-income yielding investments for prolonged periods of time. You also must realize that **TIME** and **RATE OF RETURN** are the sources of the magic of compounding!!

**Important Lessons:** (1) Look for an investment opportunity, which can offer you comparatively superior returns; and (2) remain invested for a long time to avail the benefit of 'Magic of Compounding'.
